pankajkumar76611@gmail.com

Mohali, India

## SUMMARY

Engineering graduate with more than 3 years of experience as a Unity 3D developer, specializing in C#, and data structures. Skilled in Unity ECS, game mechanics design, performance optimization, and API integration. Passionate about crafting interactive and dynamic gameplay experiences through technical precision and creative innovation.

## EDUCATION

### IGNOU (New Delhi)

PGDCA

January 2025 - December 2025

### Panjab University SSGRC

B.E. (ECE)

August 2019 - August 2023

### Progressive Central School

12th PCM

March 2017 - March 2019

## SKILLS

- Unity and C# development
- Animation system
- User interface
- API integration and socket programming
- Mapbox integration
- Highrise Studio expertise
- Lua and C++ programming
- Data structures and algorithms
- Unity physics simulation
- Shader graph
- Entity Component System
- Version control

## LANGUAGES

- Hindi
- English

## PROFESSIONAL EXPERIENCE

### Associate Software Developer

Chicmic Studios | November 2024 - Present

- Contributed to games like The Great Library, ICEY and Bent On Destruction
- Created Unity Asset Store packages named EZAPI, ECS Destruction Toolkit and Smart Prefs.
- Developed a baseball controller within Terra's environment

### Associate Software Developer

Chicmic Technologies LLP | Aug 2023 - November 2024

- Contributed to games like Hood Racing, Robbie Steal and Survivor IO Multiplayer
- Built games in Highrise Studio using Lua
- Integrated APIs and sockets to improve functionality
- Designed game mechanics in collaboration with artists

### Intern

Chicmic Technologies LLP | Jan 2023 - Aug 2023

- Assisted in Unity game development and debugging

## PORTFOLIO

- **Hood Racing** – GPS-based drag racing game inspired by CSR Racing & Pokémon Go  
[Video Reference](#)
- **Color Dash (Highrise)** – Fast-paced reflex game using Lua and UI Builder  
[App Link](#)
- **Adopt Me (Highrise)** – Family Simulation game  
[App Link](#)
- **Robbie Steal** – 2D stealth platformer with Enemy Monsters and collectibles  
[App Link](#)
- **The Great Library** – Card-based battle/exploration game
- **EZAPI (Unity Asset Store)** – API integration toolkit  
[EZAPI](#)
- **ESC Destruction Toolkit** – Runtime mesh destruction using Unity ECS + NVIDIA Blast  
[ECS Destruction Toolkit](#)
- **Smart Prefs** – Proper Wrapper For Local Game Save With Data Versioning, Data Sectioning and Data Caching  
[Smart Prefs](#)
- **Baseball Controller (Terra)** – Baseball controller
- **ChicMic In-House Games** – Bug fixes, updates and feature addition, etc.  
[Play Store Link](#)
- **Bent On Destruction (Ongoing)** – Physics-based destruction game with Unity DOTS  
[Bent On Destruction](#)
